Note: A value in "Medicare Fees" does not necessarily indicate payment. Scroll down to see Medicare's status on the code for coverage specifics. Medicare has assigned relative value units (RVUs) to codes the agency does not cover to allow payers that follow the resource based relative value system to have an agreed upon valuation rate.

Code Status C

C = Carriers price the code. Carriers will establish RVUs and payment amounts for these services, generally on an individual case basis following review of documentation such as an operative report.

Medically Unlikely Edits

Services	MUE	MAI	MUE Rationale
Practitioner Services	1	3	Clinical: Data
DME Supplier Services	NA	NA	NA
Facility Outpatient Services	1	3	Clinical: Data

MAI 1: Line Edit

MUE MAI "1" indicates a claim line edit. When it's appropriate to report units that exceed the MUE, use one or more additional claim lines with an appropriate modifier appended to the code. Payers who apply the MUE will process each claim line separately for payment.

MAI 2: Date of Service Edit: Policy

MUE MAI "2" indicates an absolute date of service (DOS) edit based on policy. Payers who apply the MUE sum the code's same-DOS units (not counting lines with modifier 55). If the sum exceeds the MUE value, the payer will deny same-DOS lines with that code on the current claim. CMS has not identified any instances in which exceeding an MAI 2 MUE is correct.

MAI 3: Date of Service Edit: Clinical

MUE MAI "3" indicates a date of service (DOS) edit based on clinical benchmarks. Payers who apply the MUE sum the code's same-DOS units (not counting lines with modifier 55). If the sum exceeds the MUE value, the payer will deny same-DOS lines with that code on the current claim. MACs may pay excess units upon appeal or may bypass the MUE based on documentation of medical necessity.

CPT® Lay Terms

Use 99499 to report evaluation and management services that do not have a specific code.

Clinical Responsibility

The provider performs an evaluation and management service that is not represented by any of the standard and active CPT® codes available.

Tips

CPT® guidelines instruct that you should not choose a code that merely approximates the service provided. You should report the service using only the appropriate unlisted procedure code if no such specific procedure or service code exists.

You must report a Category III code when available in place of an unlisted procedure code.

When reporting a procedure with an unlisted code, submit a cover letter explaining the reason for choosing the unlisted code instead of a defined, active code. Include one or more similar codes and compare your service to those codes to justify the claim amount you are billing. Also include the operative notes or other relevant documentation to strengthen the claim and to avoid a possible denial. Your payers will consider claims with unlisted procedure codes on a case by case basis, and they will determine payment based on the documentation you provide.

Code 99499, *Unlisted evaluation and management service*, is reported for evaluation and management services that are not currently described by the available specific codes. When reporting an "unlisted procedure code" to describe a procedure or service, it will be necessary to submit supporting documentation (e.g., the procedure report / OP notes) along with the claim to provide an adequate description of the nature, extent, need for the procedure, and the time, effort, and equipment necessary to provide the service. Also, submit a cover letter explaining why you have reported the unlisted code, instead of a definitive code.

Apart from reporting this unlisted code, mention one more code with similar type of service and bill the dollar amount associated with that code. The reason is that no fee is assigned to an unlisted code, by Fee Schedule. But by comparing this unlisted procedure with another definitive CPT code & its payment amount, you can explain the insurance the reason for the amount that you have claimed. In your cover letter explain the reasons for your billing the reimbursement amount. This can help a coder to avert a possible denial of claims by an insurance.
